## LONG-TERM DISABILITY PLAN • SCHEDULE OF BENEFITS AND QUARTERLY PREMIUMS

## Rate Per $\$ 100$ Benefit • Current rates effective as of 2019 <br> For a personalized rate quote, please visit abendowment.org.

When comparing rates, please keep in mind that although not promised or guaranteed, this plan is designed to generate dividends that an insured is asked to donate to support ABE's charitable mission. If you do so, you are eligible for a charitable contribution deduction on your individual tax return to the fullest extent allowed by law. Members may also annually request that any available dividends be refunded to them. For further details, see "How Your Assignment of Dividends Works" section on page 3.
Premiums are based on the insured's age when coverage becomes effective. They change on the November ${ }^{\text {st }}$ coinciding with or next following insured's change in age categories as shown. A member must be insured to insure their spouse/DP. Coverage terminates when member and/or spouse/DP turns age 75 , whichever comes first. Future benefits and premiums are subject to change if agreed to by New York Life Insurance Company and ABE. Premiums may vary due to rounding when billed.

## How to Calculate Maximum Benefit Amount:

(Separate calculations must be made for member and spouse/DP)

> \$ Annual earned income (after business expenses)
> $\div 18$
> For benefits in excess of $\$ 7,500$ divide by 20
> = \$
> - \$__ Less monthly benefits from other Disability Insurance Policies (if any).
> = \$
> Monthly Disability Benefits eligible to apply for Spouse/DP benefit cannot exceed 9 times the member's benefit

Benefits available in increments of $\$ 100$ up to a maximum of $\$ 12,000$ for members and up to a maximum of $\$ 5,000$ for spouses/DPs.

## How to Calculate Premium Amount:

1. Determine what monthly benefit amount you or your spouse/DP are eligible to apply for and divide this amount by 100 .
2. Find the premium on the chart for your or your spouse/DP's current age and multiply that amount by the answer to the calculation in \#1 above. This is the amount of the monthly premium and COLA.
EXAMPLE: A 39 -year-old member is applying for a monthly benefit of $\$ 1,200$ with a 90 -day waiting period, with COLA.
$\$ 1,200 \div 100=12 \times \$ 1.68=\$ 20.16$ monthly premium
To pay monthly,* divide the quarterly premium by 3. (ACH only)
To pay semiannually, multiply the quarterly premium by 2 .
To pay annually, multiply the quarterly premium by 4 .
